# Zenput.

# **Bluetooth Thermometer Integration**

### **Food Temperature Checks**

#### Temperature readings made easy

Ensuring food safety is a top priority for restaurant operators. A crucial part of that is quickly capturing and documenting accurate food temperature readings and immediately notifying the appropriate parties when those readings are out of range.

For fast and error-free temperature tracking, Zenput integrates with the following wireless temperature monitoring hardware:

∺32 PM Thu Jun 27 ← Daily Temp Log		\$ 57% ■
